

FOOD INDUSTRY EXPERT

Project Management Overview - Complete Concept to Contract Manufacture.

Purpose = what you should budget in your business plan

Commercials, Technical & Product Development, Brand, Packaging and Legal.

Costs quoted are indicative costs only, made using average pricing knowledge + are per product, therefore if multiple items/variants costs will increase

We would look to ensure compliance with all due diligence with factory, however as this is a key point in the process we are fully prepared to seek alternatives if selected factory fails to match up to brief when interrogated in detail and as such you should be aware that revisiting stage 3 would be necessary and further stage fees chargeable.

All travelling and out of pocket expenses are charged at completion of each stage at cost - receipts are provided at each point for each expense, where substantial expenses such as air fares are likely to incurred this is **always** pre-advised to client
